PRAYUSH STHAPIT

IT Support Engineer

Prince Edward Island, Canada | prayushsthapit2@gmail.com | github.com/prayushsthapit

SUMMARY

IT Support Engineer with 2 years of hands-on experience as a Technical Assistant and CompTIA A+ certification. Strong troubleshooting background across Windows and macOS, hardware diagnostics, and end-user support. Growing focus on networking (working toward Network+), cloud platforms, and security — on the path toward cloud security engineering. Combines technical depth with clear, user-friendly communication.

EXPERIENCE

Technical Assistant

2 years

SmartChoice Technologies

- Provided hands-on technical support, troubleshooting hardware and software issues for end users.
- Diagnosed system, network, and application problems, resolving tickets efficiently and documenting solutions.
- Assisted users with clear, patient communication, improving their confidence with workplace technology.
- Helped keep systems running reliably through proactive checks and timely issue resolution.

CERTIFICATIONS

CompTIA A+ — Certified

CompTIA Network+ — In Progress

CompTIA Security+ — Planned *(next step toward cloud security)*

EDUCATION

Bachelor's Degree in Information Technology
Foundation in systems, networks, and computing.

Graduate Certificate in Mobile Application Development
